Just as the shell is tossed to and fro, polished by many hands until it bears the hallmark of every member of the staff, even as the deadline arrived, our heads were swimming with plans and ideas, untried or discarded by popular vote. Not we, the staff, but you the students of T. H. S., have written this, your yearbook; we have only compiled it for you. It is a record of your work, your fun, your aims, your projects, and your achievements, and it is with pride we offer to you this, Your

The school is an integral part of every community, which offers educational experiences for the wholesome development of children. Our future as a nation depends upon our child development program of today. May we re-examine our moral and spiritual values and pursue to the point of excellence. By precept and example, let us as parents and teachers lead children to understand and appreciate our American heritage.
